According to "Regulations Regarding Study and Counseling Assistance for Overseas Chinese Students in Taiwan", the term "overseas Chinese student" refers to a student of Chinese descent who has come to Taiwan to study, who was born and lived overseas until the present time, or who has been living overseas for six or more consecutive years in the immediate past and obtained permanent or long-term residency status overseas. Note that for those applying to study in the departments of medicine, dentistry, or Chinese medicine at Taiwan universities, the minimum required number of consecutive years of overseas residency is eight years.

The term "overseas" refers to locations or countries outside of Taiwan, mainland China, Macao, and Hong Kong. If the calculated calendar year is not one complete calendar year, their stay in Taiwan should not exceed 120 days within the calculated calendar year intake.
